### About Frac Bretagne

The Frac Bretagne, founded in 1981, is a leading art institution in the western region of France. Through an ambitious program of exhibitions, dissemination and documentation of the collection as well as numerous programs for the public, the Frac Bretagne's artistic and cultural project, entitled "Making archipelagos", aims to question the ways in which the institution can address the legitimate aspirations of our contemporary society. Inclusivity, diversity and openness towards other fields of discipline in Brittany and the rest of the world are important facets of its mission, developed through a horizontal and participative mediation policy, the inclusion of the Frac in international circulations, and its dedication to co-productions with other institutions. It is also committed to addressing gender equality and issues of ecoresponsibility.
