### About Aberystwyth Arts Centre

Aberystwyth is Wales' largest arts centre and recognised as a 'national flagship for the arts'. It has a wide-ranging artistic programme that both produces and presents work across all art forms, including drama, dance, music, visual arts, film, and community arts. The Arts Centre is a department of Aberystwyth University and a member of the Faculty of Arts and Social Sciences. It sits at the heart of the university's campus, with stunning views over the town of Aberystwyth and along the coastline of Cardigan Bay.

### 1/ FOCUS

Ceredigion's linguistic and cultural heritage, its geographical location, its economies and unique demographic provides an interesting backdrop for this residency. Ceredigion is a rural county whose main economic activities are tourism and agriculture, chiefly hill farming, and where 60% of the population speak Welsh as their first language. Historically the county has always attracted newcomers who choose to settle here, and this has created an interesting demographic and discussion between different cultures. Two of the main discussions at present concern how agriculture can adapt to the challenges of the climate emergency, particularly through rewilding, and how to address the housing crisis as the local population can no longer afford to buy property due to the surge in the second-home market. There are intriguing levels of enquiry here as to how do we balance the protection of the region's unique culture while also protecting the environment for future generations.
