## About Flax Art Studios

Flax Art Studios has been established for 37 years in Belfast. As the only studio dedicated to sculptural practice in Northern Ireland, it significantly contributes to the region's visual art practice through subsidised studio provision and resources. Flax acts as a hub for professional development, international networking, and fostering greater understanding through outreach and engagement. Flax provides studio space for the most exciting artists in NI, reaching over 100 artists/creatives through studio provision and through its production and workshop membership programmes. Flax's artists play a key role in the life of the city, the renewal of its cultural scene, and the overall regeneration movement in which the various associated communities are directly involved. Flax Art Studios has an established international residency programme in place since 1994, and in partnership with Belfast South has the only newly built dedicated international residency space in Northern Ireland.

## 1/ FOCUS

Flax Art Studios is based in a city in transition. Colourful, complicated, messy... and magnificent.
